Past Student Feedback

“Each class with Diane is like a master class. My kids learned the process from the beginning by establishing good habits without really knowing it. The kids are encouraged to create and express their imagination while having the benefit of drawing from a wealth of timely pertinent advice on technique, color choice and composition. At first, I was surprised that my kids could sit and concentrate for that long, but they didn’t want to leave. Next I was impressed with the paintings they brought home. Finally, I’ve come to love watching the subtle but steady improvements and sudden breakthroughs the kids are making.” *Craig Herren, Out & About Magazine, March 2009*

“The most helpful classes I ever had were watercolor lessons when I was still very young. The brilliant California, purest-water color painter Diane Wallace was my teacher and she made every idea I had seem entirely possible to create. She taught me more than five years of design school and three years of graduate school ever could.” *Quote from British magazine interview with Karl Frey, artist and professor, Austin, Texas. Top student at the Art Center in Pasadena (best art school in the world) 1998-99. He is the only student in the school history to hold this position for two years.*
